

Other Information

Wheelchair clients must be able to transfer themselves from wheelchair to car.

We can only accommodate people who have had sedation or general anaesthetics if they have an escort with them.

All of our community transport drivers are volunteers, without them we would be unable to provide this vital service.

We hope that using our service will be a happy and positive experience.

Should you have any queries or concerns please contact us.

Fares can also be paid in National Transport Tokens while still available.

THANK YOU
